BUILD BETTER WITH ATS

ATS Steel Fabrication

Steel Fabrication and Supplies

ATS Building Products, delivering to the building industry quality steel building materials such as steel beams UB, UC, PFC channels, SHS, pipes, angles, bars, flats and decking. By providing customers a single location from which to source both your timber and steel building materials, we ensure that time and cost savings are maximised. ATS steel building products are manufactured from Australian steel and comply to Australian Standards for steel thickness, width, coating and strength. Reliable, competitively priced steel building materials and fabrication services.

Going On-Site

Our team are available to visit you on-site to do any measurements and installations.

Deliveries are typically done within a few days of an order being made or a week at the most, depending on how much fabrication work is required.

Steel Fabrication Customisation

Using the highest quality materials, our professional team at our Lansvale fabrication facility can do any steel customisation work you require. We can cut, pre-drill your order plus prime or galvanise it. Having full fabrication capabilities allows us to do everything in-house which ensures quality, costs and deadlines are well managed.

Steel Decking

ATS Steel Decking is an effective, durable and permanent metal formwork product. Providing fast and efficient application of suspended concrete slabs. ATS Steel Decking offers excellent spanning capabilities, high composite strength and minimal deflection.

No matter what it is you need from ATS Building Products, it's all backed up by a personable and professional service that we believe is second to none.
