## Tested Proven Quality

ATS Building Products offer a large range of construction timber products, and framing timber options available. Ideal for wall and roof framing in both residential and commercial applications. We stock high quality structural framing timber recognised for strength and durability. Available in various construction and load bearing requirements.

Our range offering includes - MGP10 untreated & H2 treated timber. Outdoor treated H3 & H4 timber. West Coast Oregon F7 & West Coast Oregon KD F8 available on request. All sizes and grades in MGP10 & MGP12, with higher grade available on request. We also provide all other general timber for your building needs.

- ✓ AS 2858 Timber Softwood - Visually stress graded for structural purposes.
- ✓ AS/NZS 1748 Timber - Mechanically stress graded for structural purposes.

We carry all sizes with full FSC® certification. Quality assured and graded to Australian Standards. We ensure our construction timber is sustainably sourced and Chain of Custody certified.
